

BUCK GARDNER CALLING RANGE

		experience of caller	purpose	loudness	polycarbonate	Acrylic (long lasting)	hand tuned	Price
Duck		it is important to buy a caller at the level of ability that you are at	what you will buy this caller for	out of 10, how far you can project your call	A durable material but not as long lasting as acrylic	Acrylic is a higher quality material that lasts longer than polycarbonate	The added advantage of being optimised by a professional for the best performance	
BG DUCK SLIMPIECE		Experienced caller	versatile finishing call, ideal for finesse calling and whiny, high-pitched calling to close the deal on skittish ducks	7		✓	✓	\$ 249.00
BG DUCK KRYPTONITE		Experienced caller	Designed as a contest call, the Kryptonite is ultra loud, making it perfect for open water areas that require extra volume. Handles high-end volume without sacrificing low-end control	10		✓	✓	\$ 229.00
BG DUCK REACTOR		Intermediate caller	The Reactor delivers back-pressure unlike any other double reed call on the market, thanks to a design that reduces escaping air. very easy to blow and makes a perfect mid-range and finishing call capable of soft, pleading quacks that gets shy ducks to react.	7		✓	✓	\$ 149.00
BG DUCK SPITFIRE		Intermediate caller	The Sorta' Single™ reed-and-a-half system is a hybrid between a single reed call and a true double reed call. This allows for the forgiveness of a double reed without sacrificing the range or tone of a single reed. Spit-Tech tone board design ensures that the Spitfire will blow wet and the reeds won't stick, even as saliva, condensation, or pond water cycles through the call. Features an acrylic barrel with a polycarbonate insert.	7	✓	✓	✓	\$ 89.99
BG DUCK MALLARD HAMMER		Beginner caller	The classic Mallard Hammer has adouble reed system. It's slightly shorter barrel, smaller exhaust port, and thick-wall insert gives it a little raspier tone	8	✓		✓	\$ 59.99
BG DUCK TALL TIMBER II		Beginner caller	The Tall Timber is made for barky hail calls and aggressive feeding chatter to grab their attention and coax ducks down through the trees.	5	✓			\$ 59.99

Goose		experience of caller	purpose	loudness	polycarbonate	Acrylic	hand tuned	Price
BG GOOSE HONKER HAMMER XL		Experienced caller	The Honker Hammer XL is engineered with high-end design features inspired by some of the best goose hunters in the USA. The broken-in guts and reed system are super responsive and pick up with minimal air pressure. A longer insert delivers more back pressure and ease of control, which enhances the responsiveness even more.	8		✓	n/a	\$ 149.00
BG GOOSE GREY GHOST		Intermediate caller	The Grey Ghost is designed with a shorter barrel and shorter insert geared for more advanced goose callers. It produces lighting fast double-clucks and has a higher pitch for loud, ringing honks that stand out from the crowd when hunting pressured birds. The broken-in guts and shaved reed are super-responsive and pick up with minimal air pressure.	10		✓	n/a	\$ 149.00
BG GOOSE CANADA HAMMER II		Beginner caller	Our original short-reed Canada goose call is still the easiest operating goose call ever made. Each call has a shaved reed for fast pick-up and is hand-tuned to ensure performance that far exceeds the price. The Quick-Tune™ guts and reed system make cleaning, re-tuning, and re-assembly simple. The double O-ring insert forms an airtight seal with the barrel to enhance sound quality.	8	✓		n/a	\$ 59.99
